

Image Classification Project

Your Name

January 25, 2024

Dataset

Here, you can describe your dataset and show some images.

Figure: Sample image from the dataset

Model

Here, you can describe the model you used for this classification problem.

- ▶ Model name: InceptionResNet (for example)
- ▶ Reason for choosing this model
- ▶ Any modifications made to the model

Method

Here, you can describe the method you used to solve this classification problem.

- ▶ Preprocessing steps
- ▶ Training procedure
- ▶ Evaluation metrics

Data Architecture

Here, you can describe the architecture of your data.

- ▶ How the data is organized
- ▶ Any special considerations for data storage and retrieval
